## DREHER BROS

BATESBURG, S. C.

Served as coffee, the new coffee substitute known to grocers everywhere as Dr. Shoop's Health Coffee will trick even a coffee expert. Not a grain of real coffee in it either. Pure healthful toasted grains, malt, nuts, etc. have been so cleverly blended as to give a wonderfully satisfying coffee taste and flavor. And it is "made in a minute," too! No tedious 20 to 30 minutes boiling. Test it and see. Dr. Shoop created Health Coffee that the people might have a genuine coffee substitute, and one that would be thoroughly satisfying in every possible respect. Sold by Dreher Bros.

Stomach troubles would more quickly disappear if the idea of treating the cause, rather than the effect, would come into practice. A tiny, inside, hidden nerve, says Dr. Shoop, governs and gives strength to the stomach. A branch also goes to the Heart, and one to the kidneys. When these "inside nerves" fail then the organs must falter. Dr. Shoop's Restorative is directed specifically to these failing nerves. Within 48 hours after starting the Restorative treatment patients say they realize a gain. Sold by Gunter's Drug Store.

## LIGHT FOR THE EYES.

Our grandfathers, who were obliged to read their weekly papers by candle-light, escaped many of the eye troubles which are common among their descendants, who use electric lamps and incandescent gas mantels. It is the ultraviolet rays in our bright lights that are at fault, say Dr. Terrien. Doctor Terrien has found that the arc-light contains three times as many of the objectionable rays as the Edison lamp, four times as many as the ordinary gaslight, or the petroleum-lamp, six times as many as the old-fashioned oil-lamp, and indefinitely more than candle-light, which is almost free from ultraviolet rays. The mercury vapor-lamp is the worst of all in this respect. The same authority recommends the use of glass shades of a greenish-yellow tint to filter out the dangerous rays.

Robert was going on a journey and while waiting at the station stood looking out the window at a switch-engine passing back and forth. Suddenly the engine let off steam, and Robert came down from his seat with a clatter.

"Oh, auntie, that engine frightened me. It blew its nose right in my face."—The Delineator.

New Kind of Setter.  
Little Oscar aged five, had a dog which was almost always to be found behind the stove in the kitchen. Oscar once visited at a house where there were two fine dogs. The master of the house told him they were Irish setters. The little fellow, who was very fond of his pet, answered quickly, "Mine is a kitchen setter."—The Delineator.

His Work Cut Out.  
They had taken a house in another part of the town and Freddie was inconsolable.

"Why do you object to moving, my dear?" inquired his mother.

"Cause when I go to a new neighborhood," replied Freddie, "I have a fresh bunch of kids to lick."—The Delineator.

A Pet, Anyhow.  
The family lived in the suburbs of the city and much to the joy of Lulu a little pig was given a home in the cellar. A few days later the little one was calling at a neighbor's, where she showed great interest in the bird.

The lady said, "Don't you keep a bird at home?"

"No," said Lulu, "we keep a pig instead."—The Delineator.
